 <p>Ultra-Quiet Pump Allows for restful sleep while conveniently attaching to the bed</p>	 <p>The Vive alternating pressure mattress pad was designed to provide you relief from bed sores and ulcers caused by prolonged bed rest. Equipped with 130 individually heat-sealed air bubbles, the alternating pressure pad evenly distributes the body weight to provide superior support and comfort. Designed to be placed on top of a regular bed mattress, including hospital bed mattresses, the pressure pad has air-filled channels that alternately fill up and decompress to promote blood flow to every area of the body, minimizing the formation of pressure points for immobilized or weak patients who cannot shift their weight frequently.</p>

PULL STRING MONITOR
The pull string alarm monitors feature a pull string cord that attaches to the resident's clothing via a garment clip. When the resident attempts to get out of their chair or bed, the pull string disengages, alerting the caregiver. Pull String Alarms Monitors can be used on wheelchair, chair, or bed. TL2000

BASIC FALL GUARD SYSTEM
• TL2100S Monitor - Adjustable volume control
• Bed or Chair Pressure Pad (TLPPBWI or TLPPCWI)

PAGER SYSTEM
• TL2016R3 MONITOR, Can turn to silent and sends a signal for 150'
• TL-2016P PAGER, Set adjustable volume or vibrate
• Bed or Chair Pressure Pad (TLPPBWI or TLPPCWI)
